Acknowledging your funding from Arts Council of Wales

There are a number of logos that should be displayed on your publications and publicity material to acknowledge your funding from Arts Council of Wales. The exact logos to be used will depend on the type of grant your organsation has received.

**Cyngor Celfyddydau Cymru
Arts Council of Wales**

For all grant in aid recipients

Arts Council of Wales is a Welsh Government Sponsored Body. For organisations that receive funding from our grant in aid, the Arts Council of Wales logo should therefore be accompanied by the Welsh Government logo at all times. The combined logo strip can be positioned where most practical and should always be used in its true form.

The full colour version of the logo strip should be used wherever possible. The black or white versions may only be used where cost is an issue, for example, one-colour print runs, or where legibility would be an issue.

For lottery grant recipients

Arts Council of Wales lottery funding should be acknowledged by displaying the National Lottery logo on all publicity material alongside the Arts Council of Wales and the Welsh Government logos.

Wherever possible the combined logo strip should be displayed in full colour. If there is some restriction, for example limited colour printing, then the black or white version can be used. The logo strip has been specially created, so it must not be altered in any way.

For all grant in aid recipients

Wales Arts International is the international agency of the Arts Council of Wales. For organisations that receive funding from our grant in aid, the Wales Arts International logo should therefore be accompanied by the Arts Council of Wales and Welsh Government logos at all times. The combined logo strip can be positioned where most practical and should always be used in its true form.

The full colour version of the logo strip should be used wherever possible. The black or white versions may only be used where cost is an issue, for example, one-colour print runs, or where legibility would be an issue.
